Skills

Proficient with:

HTML, CSS, JavaScript, React, SASS, Figma

Experience with:

TypeScript, Redux Toolkit, Swift, Firebase, Git

Projects

Calendar Project React, Redux Toolkit, Firebase

- Calendar that allows users to make an account using Firebase Authentication and create custom events that have CRUD functionality
- All user events are stored onto a Firestore database and are automatically saved and retrieved when a change is made

Shopping Cart React, TypeScript, Redux Toolkit

- Fake e-commerce website that allows users to add items to their cart and adjust the quantity of products

Tip Calculator HTML, CSS, JavaScript

- Allows users to input bill amount, number of people and tip percentage to divide the bill evenly.
- The design for this project was provided by Frontend Mentor

Pixel Art Editor HTML, CSS, JavaScript

- Users can select a grid size of their choice and can create pixel art
- The selected grid size is calculated with JavaScript and displayed using the HTML Canvas element
